DRAW 80 POKER

Here is the newest version of the game that started it all Historically it has proven itself to be a popular choice for operators of a wide variety of amusement locations Fun, fascinating, exciting and captivating, Draw 80 Poker continues to attract enthusiastic players.

As the premiere game in the line, this challenging game will test the talents of even the best players as they try their skill against the computerized dealer Players may stand pat or discard and draw 1 to 5 cards on each hand. And every new hand features a reshuffled deck where one to eight skill points may be played This is a full house of player excitement, machine reliability and top earnings Add it up and it all adds up to fun Go with the world leader in video gaming and the machine that started it all . . and you'll go with higher profits right down the line

This new generation of Draw 80 Poker has versatility and player appeal never before available Not only can it be adapted to all the other versions of Quick Change, it can be easily converted to a double-up, a jokers wild, or both and much, much more.

WILD ONE

52 cards plus the enticing wild card joker will certainly attract enthusiastic players Playing up to eight credits, the player may draw or hold up to all 5 cards Winning hands are awarded the appropriate skill points which are registered in the lower right corner of the screen as credits

After a Winning Hand, Player May Push "REMOVE" "RECALL" and Let Winnings Ride on a Single Card, Dealt Face Down.
Player May Play 9 thru Ace or 2 thru 7. 9 is Automatic Loser. Joker is Automatic Winner.

DOUBLE UP

When this option is in effect, players may try and double their skill points on winning hands The player chooses either Hi (9 thru Ace) or Low (2 thru 7) on one face down card and lets his winnings ride

QUICK DRAW 2001

A full house of action as players test their skills against the computerized dealer There is a reshuffled deck each hand where one to eight skill points or coins can be played Players stand pat or draw up to 5 new cards to get winning combinations that earn skill points to use as credits for further play.

After a Winning Hand, Player May Push "REMOVE" "RECALL" and Let Winnings Ride on a Single Card, Dealt Face Down.
Player May Play 9 thru Ace or 2 thru 7, 8 is Automatic Loser.

DOUBLE UP

A player s winning hend is clearad, and with this option a single card is dealt face down. Players choose aither Hi (9 thru Ace) or Low (2 thru 7) to try and double their skill points

CASTLES/WILD DRAGON

Five castles, numbered 2 thru 13, with one numbered 1 or 14, are dealt to the player He then may hold or remova any or ell ot his castles, with those removed replaced by new ones In Wild Dragon, thera's the added ettraction of the dragon which has no value but can be used as part of winning combinations which are awarded various skill points. One to eight credits may be played per game

After a Winning Round Player May Push "REMOVE" "RECALL" and Let Winnings Ride
Displayed Face Down on a Single CASTLE
Player May Play 9 thru 14 or 2 thru 7
8 is Automatic Loser

DOUBLE UP

With this option in effect, a player may try and double his skill points on a winning game by picking whather a face down castle is Hi (9 thru 14) or Low (2 thru 7)

PLAYER'S PICK

A fast moving version of 21" with some unique twists First, the player can pick whether the dealer s hand will be dealt tace up (both cards) or tace down (1 card up, 1 card down). Then, if tace down" is the pick, and the dealer s tace up card is an ace, the player has the opportunity to insure his credits against a possible blackjack in the dealer s hand Plus, the player can split any pair and play two separate hands All the player options make this game exciting, including

DOUBLE DOWN

When the player s first two cerds equal 10 or 11, he may receive one more card by playing additional credits up to the original amount played All to go after the high points earned on blackjack

KENO

Available with either a light pen or push buttons, players mark from 2 to 10 numbers (spots) on the screen Then the action begins The computer randomly selects 20 numbers Skill points for continued play are awarded to the player according to the number ot spots he hits in conjunction with the number originelly picked Up to 8 skill points or coins can be pleyed on each new keno ticket And with all the excitement, the players just keep on playing
